

Free Amanita Newsletter 2/8/23: Salvation: only 1 among 10,000 souls white

But those enemies of mine who did not want me to be king over them - bring them here and kill them in front of me. (Luke 19-27)

1. Salvation: only 1 out of 10,000 souls white

The biggest surprise in 2022 for me was that the number of white souls (whose names are in the Book of Life) continued to implode to a tiny level of just 1 among 10,000, that's why we only have about a half million white souls worldwide, including the 144,000 sealed Jews (meanwhile the world population has collapsed to hardly more than 5 billion). So in 2022 not a *single* white soul was left among the thousands of subscribers of this free Amanita newsletter, that's why I want to dedicate this free Amanita newsletter to the crucial question how to retrieve one's soul from hellfire, in the form of a list with 21 points. This article is based on earlier articles on the issue of salvation, especially the one from 3/22/22 ([Link](#)).

2. Free market commentary: 2023 the year of death & grief (biorhythm)

And I say to you, make friends for yourselves by unrighteous mammon, that when you fail, they may receive you into an everlasting home. (Luke 16-9)

As expected, the world situation escalated dramatically in 2022. Since the beginning of the end times in the narrow sense in 2016/17 the birth pangs of the Golden Age (Matthew 24) come faster & faster. Since the big Nostradamus timeline mid-December 2021 almost every week fulfills yet another major prophecy, as discussed in detail in the premium area. Review since 2019:

(1) The final days of the year 2019 with the major stellium near the Galactic Center (in early Capricorn) was already mentioned as crucial in the circa 800-year-old Dresden Codex from the Mayas. It was also stated long in advance that the new age freaks with their mad forecasts for the Mayan date 2012 will meet their Waterloo. This was true, on a gross level nothing special happened at all, however, on the subtle level incredible things happened, namely mother earth losing her core veil on December 23, 2012 at 0:23 East Coast time through the Merlin lineage: double 23 code pointing to 2023 (where the gross effects of the subtle causes will become visible). Junior prophets (level of consciousness LoC<700 Link) can *never* clearly distinguish between subtle & gross, however the subtle level (=Yang) always is first, followed by the gross level (=Yin).

In contrast, it was predicted here years in advance that the last days of 2019 would be the real Mayan timeline (on a more gross level). And this is exactly what happened, on 12/31/19 Covid was officially born & then the world changed from scratch to an extent that hardly anybody would have considered possible. In the premium area it was said in 2019 that from mid-January 2020 the topic of pandemics plays a great role, especially because of the opening of the 4th (green) seal of the Apocalypse & Saturn 0° Pluto (*the* constellation of pandemics in the past thousands of years, according to my research). Needless to say, exactly around mid-January 2020 the situation exploded in China & 1/21/20 Wuhan was closed. Already a century in advance the Buddhist monk Zigong prophesized that the Chinese New Year in early 2020 can't be celebrated regularly because of a pandemic – what an incredible precision.

(2) For about 7 years ago mid-December 2021 was mentioned as **the** big Nostradamus timeline for the Whore of Babylon (=USA) defined 400-500 years ago: 73 years 7 months after the foundation of Israhell on 5/14/48. Indeed, on 12/17/21 the Russian bear gave an ultimatum to the NATO criminals led by the Whore of Babylon, which was a de facto war declaration against USrahell & thus the beginning of the end for the evil empire as well as the beginning of the 'regular' world war 3. The hybrid WW3 with the bio-weapon Covid began in 2020: 2020 was already mentioned a century ago as the onset of the 18 years of destruction in the Mongolian prophecy by *Ferdinand Ossendowski*.

(3) The master date 2/22/2022 was given years in advance as the key date of 2022 & 1-2 months in advance it was said in the premium area this would mean the Ukraine war – which broke out February 17-24, 2022.

(4) Already in an article written in 2018 I spoke of a total birth crash from 2022, which was later fine-tuned to Q2/2022 in the premium area: truly, from Q2/2022 the birth rates crashed as certainly **never** before in the past millennia. Even official numbers admit a collapse of up to 70%, how much worse must reality be then (because official data are nearly always heavily massaged)?

(5) Long in advance it was predicted that from the 2nd half 2022 death squads would start to free us from politicians & other elites. As a matter of fact, in July 2022 the by far biggest series of assassinations in history began around the globe, the first was the earlier Japanese minister president *Shinzo Abe* on 7/8/22. Officially we have seen assaults on 1-2 dozen of mainly (pro-) Russian politicians, but reality this number is a mind-boggling 200-300... In principle, this fulfills the many prophecies of the murder of the world leaders to a large extent.

(6) In the summer of 2022, Nov 8/9, 2022 was given as a major low point/ defeat for Russia in her fight against evil, which is why God's iron rod must then take out the biggest guns. Again this was spot-on, on this very *day* Russia abandoned Kherson, which was interpreted by some military observers as the biggest Russian defeat since WW2. Immediately afterwards General *'Armageddon' Surovikin* ended the nonsense of the *'military special operation'* & began the real war, so almost all of Ukraine was briefly without power. The Ukraine war could have been over within weeks if Russia hadn't behaved like a do-gooder but had things done in the optimal way: Russia will pay dearly for her sin of sloth/ cowardice/ wimpishness.

How was it possible to come up with the very **date** of the biggest event in the Ukraine event? Mainly because since the biorhythm has been used in the premium area, which partly works to the very **day**, which is more than amazing. So in 2022 the Amanita timing got another booster, the Amanita methods are in continuous development & absolutely unique in this corner of the galaxy, there is nothing comparable. The biorhythm innovation in 2022 was the biggest since 2016 in the Amanita system. For the first time I have to say that the approach of timing hits the brick wall, i.e. a further increase of such timing accuracy is neither possible nor necessary nor meaningful. As always, all honor is due to the Most High, who revealed many of His secrets in 2022.

Without doubt, world events unfold as foretold by the (good) prophecies. Unfortunately, the wannabe prophecy experts spread so much BS, especially that the event of the past 3-4 years are not part of the parties: nothing could be further from the truth than these lies. The errors of the wannabe experts make your toes curl in horror, they make almost all errors one can make.

It begins with the selection of the prophetic sources, with both quantity & quality being a nightmare: normally they only rely upon a tiny number of sources, mainly the weakest of the bad ones & then they misinterpret them. Alone their interpretation is destroyed by hundreds of errors, with the worst likely is to demand 100% accuracy, which has **never ever** worked for junior prophets & even hardly for senior prophets because of their codes. In the Kali Yuga until 9/15/23 a mere 50% are quite good, we must wait until the 2030s for the Most High to pour out vakku sidhi (=perfect prophetic quality) upon the white souls, which is stated in several palm leaves.

Within the framework of Amanita Market Forecasting some 500-1000 prophetic sources are systematically analyzed with tens of thousands prophecies – which is a drudgery but at least a success. The topic of pandemics was covered by at least hundreds of prophecies. And the Ukraine war was discussed in dozens of prophecies, yet most of them are unknown in Pussystan. For instance, an Orthodox Elder already prophesized in 2009 that Russia will at first will look weak during the Ukraine war & lose (in the eyes of the world), before she wins. The Russian reluctance to lead war is also described in *Ezekiel 38-4*, so God must **force** Russia into war. As everything

else, the outcome of the Ukraine war was already carved in stone before the universe was created, because in the eyes of the unmanifested God (Nirgun) time simply doesn't exist – for God today is 'now' in the same way as the events in a billion years. The outcome of the Ukrainian war has been crystal-clear for a long time, e.g. based on a prophecy from Kiev.

Wannabe prophecy experts never understand the hierarchy within prophecies, there are 162 parameters to describe prophets, some examples:

(1) The crucial dividing line is between junior prophets (LoC<700) & senior prophets (LoC>700) based on the consciousness scale of David Hawkins MD PhD (Link), junior prophets are in principal apprentices in the field of prophecies. So the senior prophets define the structure, the trainees mainly mess around within this framework.

(2) Only senior prophets can offer reliable timing, junior prophets consist of 3 sub classes: (a) For most of them timing means nothing at all or they don't make any timing statements. (b) For a minority, their timing could *possibly* mean something. (c) A hand-picked list of sources offers timing that in principle means something, but not always & perhaps not with accuracy. However, after their death day many junior prophets fall 1-2 levels back in this model, i.e. they can hardly or not at all look beyond their death (e.g. *Alois Irlemaier*). Actually the first possible timeline of deterioration of junior prophets is the life age 66.6 years, because in the crash phase of one's life cycle the excarnation begins.

(3) Within the world religions there is a clear hierarchy: the best prophecies come from Hinduism & Buddhism, far behind are Judaism, Islam & Christianity. Within Christianity prophecies there are 3 levels: (i) Orthodoxy is best, (ii) Catholicism is average, since the fall after the introduction of the Rosicrucian LoC=515 (Link) in the year 1409 (iii) Protestantism is worst, because *Martin Luther* had a black soul & his curse is still on these churches. From these churches the biggest junk arises, namely the myriads of 'rapture' videos. After a perceived number of 666 million wrong rapture calls you would expect that finally somebody uses their brain, but far from it. Regarding the 'rapture' topic almost everything that can go wrong does go wrong, beginning with the fact that there won't be a physical rapture, but only a rapture of the soul. Moreover, the numbers from *Matthew 24* (code for 2024?) are always raped: "Two men will be in the same field, but only one will be taken, the other will be left." This is usually misinterpreted as 50% of humanity being raptured, but this is totally wrong. In contrast, the reference base are the *diligent* workers of God (in the field or mill), which make up far less than 1% of world population: half of *them* will be raptured into heaven (confirmed by the allegory of the 5 smart & the 5 brainwashed virgins).

(4) The age of prophecies is also very important: the older, the better. *All* world religions have experienced a consciousness fall in the past millennia, the smallest in Buddhism (Link) & the biggest in Christianity (Link), which Hawkins rightly labelled the biggest spiritual catastrophe in history. Prophecies made thousands of years ago are by far the best, those aged centuries are usually also quite ok but the one of the past decades are worst. E.g. almost *all* prophecies since WW2 have spoken of the evil *Ivan* & the 'surprising' Russian invasion. As always, the very opposite is true: *nobody* has been more patient with the powers of evil & *nobody* has warned the powers of darkness of evil more often than Russia. Only completely lobotomized can still be 'surprised' now in 2023 when Russia defends itself against the goddam NATO hellhounds, the right of self-defense is of course fully covered by the law of nations. In the old prophecies these things were mostly depicted correctly & some Orthodox prophecies explicitly state that even the Antichrist will fear Russia – which becomes more & more visible since 2022.

A small exception from this rule are the Vedic texts including palm leaves, whose roots are at least 5-10,000 years old. They hardly ever warn of hell, because *at this time* this was not an issue yet. The hell realms were created after the Lucifer rebellion 26,000 years ago (Link) & for many thousands of years only contained fallen angels, not fallen humans. Only few souls had already fallen so low at this time that they could no longer reincarnate in a human body, but somewhere else (e.g. in an animal body or in hell). These & many other hierarchies are important to interpret contradictions between prophecies.

2022 was the year of split & divisiveness, because the year number consisted only of the number 2, so we indeed experienced a split on all levels: soul-wise, militarily SCO versus NATO criminals, biologically (humans with original DNA & jab mutants with extra-terrestrial DNA) etc. 3 is the number of death & the illuminati & 2(0)23 is the mirror number of 322 = Lodge of Death (Skull &

Bones). Psalm 23 (->2023) speaks of the passage through the valley of the shadow of death. 2023 as the year of death & grief dwarfs everything the world has ever seen, but is nothing but a turquoise nightingale fart compared to 2024 (the year of Europa's fall, zombies, cannibalism & the Kaiser). This has been recognized concurrently by a number of prophets, including Byron Searle = U B Ready with a high LoC=660 as of early 2023, who is almost a senior prophet LoC>700 ([Link](#)). In Hebrew ([Link](#)) 2023 is *hor* like horror but also like *Horus*, the chief of the gods in ancient Egypt, so the old Egypt will somehow rise & be resurrected. Moreover, the 4 *major* prophets of the Old Testament (Isaiah, Jeremiah, Ezekiel & Daniel) in the 23rd-27th book of the Old Testament, i.e. the *major* Biblical prophecies mainly fulfill in the years 2023-27.

Theoretically the 23 is also the number of rebirth in the Holy Bible ([Link](#)), although only 0.1% will use this opportunity. There are 4-7 key dates in 2023: one in spring 2023 & three in fall 2023 – perhaps another 1-3 dates which are questionable. Two of the fall dates reflect the logic discussed by Pastor *Perry Stone*. Especially the fall dates should fulfill certain Biblical prophecies like *Daniel 12-11ff*, fall 2023 will be incredible...

The most important & delightful death is the death of the Kali Yuga (dark age) on 9/15/23 after 5125 years. Without doubt, the death of the financial system in fall 2023 predicted for almost a decade is a direct consequence, the other systems like the medical system (i.e. the satanic Rockefeller medicine), legal systems will die fairly close to the financial system (2023/24), praise Jesus Christ! Moreover, many illusions will die after reality shocks, *Arthur Koestler* put it that way: *"Nothing is more sad than the death of an illusion."*

Moreover, the global leader dies, from 2024 the people from the Temple Mount can no longer strangle humanity & the global alpha role will be transferred to the people of the Untersberg Mountain, who will fulfill the expectations in contrast to the Khazarian mafia, so *Matthew 21-43* fulfills in the full version from *Marcioni* ([Link](#)).

Around 2018 comprehensive palm leaf analyses were conducted, where in the region of the Untersberg Mountain the first (minor) death wave in 2023/24 showed up & the second (much bigger) about a decade later (when the final big end times battle takes place in the Austrian Waldviertel, near the headquarter of the Kaiser). Yet it was added that deaths partially occur already one year or more *before* the prophesized date, which rather pointed to 2022/23. Either way, the mother of all death waves converges to 2022-24. Already in 2021/22 a *lot* more people died in the hybrid WW3 (=death jabs) than in the first two world wars *combined*. Later the history books will write that in the jab globocide in Gynocratia 2022 was the peak of the death wave of the oldest cohorts & in 2023 in the younger cohorts.

Meanwhile at least 1/3 of the population in Castratia (=nasty socialist bloc with the center EUSA) has perished since the all-time highs in the 2010s. Similarly, already around mid-2022 the Chinese population was 30-35% lower than the official numbers ([Link](#)), now in early 2023 by 40-50% & very soon we are at less than half – hallelujah! China apparently experiences the peak of the death wave in *absolute* numbers now in early 2023. In Cuckburg (nasty socialistic block lead by EUSA) we have already reduced population by more than 1/3 since the all-time highs in the 2010s, as proven by dozens of data series in the premium area. Frighteningly, almost nobody realizes the amount of the population reduction, the deception of the (m)asses including the so-called 'truthers' is past the limit. In 2024 the death waves in the region of the Untersberg Mountain (where most palm leaves have been read) won't be as dramatic, but in many other regions around the globe 2024 will produce so many more casualties than 2022 & 2023.

I want to thank you for your continued interest & may God bless you!

Yours,

Manfred Zimmel, MoD (Master of Disaster)

Premium subscription order page: <http://www.amanita.at/en/market-letter/price-list-order-form-premium-subscription>

Content of free Amanita newsletter: The free Amanita newsletter is sent out every 3-12 months, it complements the Amanita premium newsletter subscription, which is published 1-5 times per month (target: 30-40 premium updates per year). The free market commentary is only considered to be a commentary on the financial markets. Financial forecasts in the narrow sense of the word are only offered in the premium market letter.

Note that the Amanita system is optimized for smart instruments (futures, FOREX, CFDs, crypto-currencies). The Amanita system is based on a high degree of diversification in 5-6 markets (currencies including cryptos, agriculture, precious metals, energy, bonds - stock markets only very limited) & only makes sense as a whole (but never in isolation!), because all positions are well-orchestrated.

For these 2 reasons (professional instruments & diversification) a replication only works for larger portfolios with at least EUR 400,000/ USD 500,000, as well as for institutions (among the premium subscribers there are fund managers managing billions of euros or dollars). Because the Amanita premium market letter is very different from every other market service on the planet, you should be prepared for at least 3-6 months to get acquainted with the Amanita system. That's why the shortest subscription period is 6 months & trial subscriptions are no longer offered. Personal services had to be discontinued in 2008 because waiting times rose to more than one year.

Salvation: only 1 out of 10,000 souls white

My God, why have you forsaken me? (psalm 22)

The biggest surprise in 2022 for me was that the number of white souls (whose names are in the Book of Life) continued to implode to a tiny level of just 1 among 10,000, that's why we only have about a half million white souls worldwide, including the 144,000 sealed Jews (meanwhile the world population has collapsed to hardly more than 5 billion). So in 2022 not a *single* white soul was left among the thousands of subscribers of this free Amanita newsletter, that's why I want to dedicate this free Amanita newsletter to the crucial question how to retrieve one's soul from hellfire, in the form of a list with 21 points. This article is based on earlier articles on the issue of salvation, especially the one from 3/22/22 ([Link](#)).

New statistics on white souls

My very first projections 5-10 years ago were based on the 144,000 Jewish chosen ones, who are about 1-2% of the Jewish population, then I used the same 1-2% for the whole world population. But then I realized that Judaism enjoys several privileges until 9/15/13 as the chosen people, e.g. a higher percentage of white souls compared to the goyim. Later I discovered some concurrent sources that left no doubt that only 1 out of 1000 souls will remain white (be saved) - to be precise 0.12% according to the Gospel of Thomas #23 (code for 2023). This tiny number was hard to accept, because at the beginning of the 21st century the white souls were still the majority. Then in May/ June 2021 a part of the white souls experienced the preliminary sealing (Golden crowns according to psalm 21 -> 2021), which was a kind of betrothal with God. However, most of these engagements were dissolved, because of the misconduct of these souls.

In 2022 this ratio even dropped to 1 among 10,000, which was a surprise, but it was encoded in psalm 91/ 11-12: „Though 1,000 may fall at your side, and 10,000 at your right hand, no harm will come near you [=white souls].“ Until 2022 I didn't understand why two numbers (1000 & 10,000) were mentioned: 1: 10,000 means the ones who experience a short-term fall, then the soul review etc. follow & this number goes up 10fold to the final number 1:1000. The number of the verse numbers 11+12 yields 23 & thus also is a code for 2023. In the darkest hour of humanity Jesus Christ before his death quoted psalm 22-2 (-> 2022): „My God, why have you forsaken me?“ (Eli, Eli, lama asabtan?) By the way, psalm 22 -> 2022 is the only one talking of abandonment by God & demonstrates that 2022 was the worst God-forsakenness for humanity. In addition, newer prophetic sources speak of 1:10,000, for instance Anna from Brazil in an 8/17/22 video from Peniel Ngonde ([Link](#)). The sum of the verses of the 91st psalm 11+12 yields 23 & thus is a code for the all-time low 1:10,000 in 2023. Old Austrian legends ([Link](#) #55 #56 #68) say regarding the time before the Kaiser is initiated: “The Christians [white souls] in Austria have enough space under a tree.” Because of the death jabs etc. the Austrian population falls to less than 5 million by 2024, 1/10,000 is about 500: this is the number of people which can stand below an old big tree.

Profile of the white souls

Apart from myself, only 3 (!!!) persons on my personal observation list could remain consistently white since 2020, with their names written in the Book of Life. I was a chameleon in early 2012 & thus in danger of losing my soul. 2 of these 3 are yoga teachers (one of them kundalini yoga) & mantra singers, this is significant. No. 3 is a medical doctor with the focus on anthroposophy, which is based on *all* major world religions (especially Christianity & Hinduism). Thus all 4 permanently white souls have a rather strong Hindu background, the reason is obvious: with LoC=970 the Vedas & Upanishads calibrate *by far* highest among all classic spiritual texts ([Link](#)) – only the Sermon on the Mount comes close with LoC=955.

Then a small number of people exists that has changed sides a few times in the past years (white/black/ chameleon). It's not easy to say who is still a crosser & who has fully lost their soul, but I arrive approximately at a dirty dozen. I call them filthy buggers because on the Jewish scale of impurity 0-50 they are mainly in the 20s & 30s & thus rather dirty on a soul level, their spiritual garment is not white. One of the 12 litterbugs is Sergey Koltsov who got black in the first quarters

2022. On 12/8/22 ([Link](#)) he admitted that he was ‚closed‘ for a longer time, which means about the same as a black soul. He could open himself in fall 2022 with the new functional corrector New Star.

The dirty dozen is more heterogeneous than the 4 white chosen ones, still *all* of them have a profession in the area of spirituality & healing. This is a corroboration that the time effort is decisive: with a normal bread-and-butter job & family it is extremely possible or outright impossible to achieve the necessary 3-6 hours of spiritual work per day. Normally there are only 3 solutions for the time problem: either reduce one’s working time or private time dramatically – or have a spiritual profession, which is most compatible with a normal life. Depending on the kind of spiritual profession an additional 1-2 hours during one’s private time might be enough. The Most High wants us to set clear priorities on *all* levels, especially when it comes to the 24 hours everybody has.

There is yet another specialty among these 16 (rather) white souls: almost all of them include body work in their spiritual approach, which is nearly always part of the Hindu path (hatha yoga). The exceptions with little body inclusion are 2 Christian youtubers who are the weakest in the dirty dozen & thus 2022 black most of the time. Christianity is the only major world religion with almost no body relation, Islam also has very little, but at least the Sufis (dance of the dervishes) have a strong body correlation, that’s why they calibrate *hundreds* of points higher than the other Islamic traditions ([Link](#)). So this explains the tiny number of Christians, which is a general phenomenon: *David Hawkins* called the fall of Christianity the biggest spiritual tragedy in history.

I also found astonishingly low LoCs in the Merlin lineage, which puzzled me for a long time, but I also see the lack of body integration as the main factor (overlap with the totally ungrounded neo Advaita). 2008-12 was my intense tantra time, where I was amazed to calibrate the highest LoCs in these seminars: most were in the mid- to late 500s. Western tantra is derived from many sources, especially kundalini yoga and white & red tantra. I found the second highest LoCs among kirtan visitors (mantra chanters), albeit depending heavily on their guru.

As my yoga teacher for many years said: no raja Yoga (=spirit) without hatha yoga (=body) & vice versa. The physical body is almost the weakest link in the chain, there is the reason why the devil wants to poison us by all means, so our body (the temple of our soul) can’t hold a vibration & automatically becomes a portal for dark powers. Examples: dead or GMO food, air pollution, thousands of industrial toxins, chemtrails, electrosmog & worst of all of course the Covid death jabs. Note that in earlier times the body relation was less important for a number of reasons, e.g. because the intoxication of humanity was small until the 19th & partly 20th century, a lot of body work was part of our everyday lives & spiritual processes were unfolding so much slower, so the automatic embodiment (over time) was enough.

21 reasons for a black soul

According to the Most High, there are on average 26 causes for a black soul for a person, which however correlates a lot with the soul age according to *Wolfgang LiBeck* ([Link](#)), i.e. the older the soul, the more roots: old souls can have hundreds or even thousands of underlying causes. Below please find 21 reasons roughly sorted according to their statistical frequency, with each factor possibly having dozens of sub-items, so we arrive at thousands of possible roots:

(1) Electrosmog (cell phone, vaccines etc.)

This topic has been discussed in great detail since 2010, the cell phone is the mark of the 666 beast & opens the soul access ([Link](#)). Unfortunately, this is not understood by 99% of the spiritual circles, apart from a few electrosmog refugees living in a not spot everybody is affected by electrosmog. According to a small study by *Dr. Luis de Benito* with N=137 ([Link](#)) 86% of the jabbed produce bluetooth electrosmog, i.e. the mutants (without placebo jabs) can no longer turn off their electrosmog, they have a kind of tiny cell phone in them. Father *Paisios* from Mt. Athos already warned in 1987 that the vaccine would be mark of the 666 beast (to be precise combination of cell phone & vaccine). Thanks God, most of the zombies will be roasted in hellfire by 2024. The other 14% were in 2021 those with nothing but placebo jabs, needless to say in 2023 this share is a lot smaller because of the much bigger number of death shots.

(2) Spiritual time effort 3-6 resp. 8-12 hours per day

About 6 centuries ago the Italian monk Ragno Nero recommended at least 3 hours per day of spiritual work from 2018 ([Link](#)). Without doubt, the monk was right, since 2018 there is no quick & easy fix for the soul problem. The reason is that in 2018 the black horseman of the Apocalypse began, since 2018 souls have gotten black with light speed. For the same reason the Lord told me to write the first article on black souls in 2018, released in early 2019.

The reason is that the age (Kali Yuga) of spiritual delegation to gurus ends now, you must have a good personal relationship with the Most High. However, these 3-6 hours are the minimum to keep one's soul clean, a black soul certainly must spend at least 8-12 hours per day to change tack, so there is very little time for *anything* else.

Bizarrely, many ask how should I fill out these 3-6 or 8-12 hours? The real question is just the another way round: how can I achieve (with divine help) the impossible in spite of the day having only 24 hours? There are 3 different kinds of spiritual work: (1) spiritual theory (2) spiritual practice (3) spiritual everyday life.

(1) Spiritual theory: For spiritual beginners (>95% of humanity) spiritual theory is the main challenge, as stated by *Hosea 4-6*: „*My people are destroyed because they lack knowledge of me.*“ When we define the spiritual knowledge required in the end times as 100%, then humanity on average has only 2-3%, i.e. almost nothing.

Earning one's spiritual base certainly needs thousands of hours, note: on average a full time job means 1800-2000 working hours per year. Two good entry points: David Hawkins (12 books & de.spiritualwiki.org) & Jayant Athavale (spiritualresearchfoundation.org), both with a high truth content but not 100%. The biggest nonsense of *Athavale* is his angel article ([Link](#)). Excellent sources for spiritual warfare include [spiritreports.blogspot.com](#) with more than 9300 PDF pages & the YouTube channel of Peniel Ngonde ([Link](#)). Lisa Renee (ascensionglossary.com) is a very comprehensive yet also very demanding source.

(2) Spiritual practice: In contrast to the spiritual theory, the spiritual practice is a lot more heterogeneous & specific for each person. Since my satori event in mid-December 1992 (first touch of enlightenment on average LoC=585 [Link](#)) I have tried thousands of spiritual methods & practiced many of them for a longer time, in principle all of them can help. Unfortunately, now in 2023 almost all prayers are sin, as described in psalm 109, see a separate point on prayers & why they are not answered. In 2023 about 95-99% of the spiritual gatherings & sessions are sin & (very) negative for one's salvation, because these gurus no longer have a white soul. Although the 3 worst spiritual practices are babbling in tongues, family constellations & reiki, it can in principle mean every spiritual or healing method. By *far* worst is the babbling in tongues, which I experienced twice: each time a huge number of demons arrived almost immediately. Only a few percentage points of the churches are still controlled by angels, almost all by fallen angels = demons. Visiting a church in the hands of the devil means most likely one is battered by demons, e.g. you might get curses, astral dirt, implants etc.

(3) Lack of physical integration & detoxification, especially vaccinations

Again this is a very common problem. Homeopathy has pointed out the miasmas, the 3 main miasmas are psora, sycosis & syphilis, which describes the decay of humanity during the Kali Yuga. Thousands of years ago still the rather superficial psora miasma = skin diseases, e.g. the Holy Bible talks of the lepers. Later we continued to drop into the sycosis miasma & more than 500 years ago at the beginning of the modern age we began the syphilis miasma of destruction, which dominates today. The instruments of destruction are weapons & toxins, that's why today intoxication is a huge problem like *never* before. According to the *Klinghardt* axiom, for every spiritual toxin there is a gross equivalent, which is true both on an individual & collective level, i.e. a black soul always accumulates more poison, as does humanity as a whole.

The peak of the autointoxication are of course the Covid death jabs with mRNA, where the poison sits as deep as possibly & almost irreversibly (DNA) & the very limited life-time creates an enormous time pressure. For the *real* jab monsters the ship has sailed (about 20% of the Covid shots were placebos), all that matters for them is to carve out as enough time to make their souls

white again. A realistic goal for vaccine zombies (not including those who received only placebo shots) is to extend their lifetime until (late) 2024, because of the liberation from the soul prison in 2024, as described in psalm 24.

Still, the death jabs are only the culmination & end of a trend that began millions of years ago & accelerated 75,000 years ago, when the 666 quarantine seal was installed in the solar system during the Nephilim wars, installing the totally abnormal reincarnation duty on this slave planet ([Link](#)). Already 75,000 years ago humanity was a terrible pest for the rest of the galaxy, but nothing compared to today.

For the rest of humanity the shedding problem is important, too, and a lot more than admitted. The spike protein=prion calibrates extremely low at LoC=20=black magic=spiritual war: this topic became popular in 2020 with the double 20=war. The prion pulls down into the lowest hell level & as of early 2023 the subtle field is still very strong, definitely a *huge* burden for *every* human. Of course, one should avoid crowds of people with a zombie stench, the mutants stink of cadaveric poison (cadaverin & putrescin) because they are certainly written in the Book of Death (=hell). And the higher-dimensional field won't go away before 2024 when most jab mutants are tormented in hellfire, where they receive the fair wage – praise Jesus Christ! With the fire of God one can burn out infections on both a gross & subtle level. On average a human has 10 gross infections in 2023, but >10,000 subtle infections.

For the detoxification we need to adopt a two-pronged approach, i.e. both spiritual/ soulish & bodily. An Orthodox priest cried for 40 days in order to clean his soul after the death jab ([Link](#)): this is the minimum program for those who were spiritually very advanced before the death shot – all others must add at least a zero. However, after these 40 days this priest still didn't have a white soul, as he was a chameleon. It needs a soul temperature 1008° C ([Link](#)) to destroy graphenoxide (nanolipids), which is able to withstand more than 900° C ([Link](#)). Practical comments detoxification methods:

* Koltsov plates: The 5 basic correctors are 1+2+4 (men) resp. 1+2+3 (women), moreover since 2020 also the plandemics corrector gift of fire. Then we have the 6 magical plates to open (Covid closes a lot [Link](#)): Transformation, Solar, Gift of the Skies, Sunny Smile, New Time & Wheel of the Fate. Because Covid has *always* mainly been a blood disease, you need functional correctors for heart & circulation, e.g. no. 9, Manasarovar / Kailash & Pearl of Serbia, moreover the bracelets Cardio & Venorm. In some circumstances you also need spiritual plates like Transmutation burning entities as does no. 20 (war plate) & erases negative rhythms like Source of Great Mountain.

Covid has *always* primarily been a heart-/ circulation pandemic, which is admitted by the lying press but denied by the truther devils. Since 2020 the so-called truthers lie more than the lying press, which is more than shocking. The 'truthers' lie 24/7 that in 2020 we didn't have a Covid plandemic yet, as nearly always the lying press is closer to the truth than the 'truthers'. As already predicted here in 2010 ([Link](#)) the life expectancy in Castratia has been falling since 2013/14 (40 quarters of testing that began on 8/23/13) & death rates already exploded *hundreds* (!) of percentage points in 2013-19, which was proved through a number of data series (before they were totally counterfeited) – which is 100% swept under the rug by the 'truthers' & the lying press, both satanic groups try their best to sugarcoat the incredible dynamic of the death wave. Moreover a study with British data from the year 2020 has revealed a death risk of Covid patients almost 2 zeros (81 times +8000%) elevated, with the focus on heart & circulation ([Link](#)). The British data have consistently turned out as the least counterfeited.

* Biomagnetism according to Dr. Isaac Goiz: Simplified home user protocol according to *Dr. Mario Ricardo Rodriguez Ramirez* ([Link](#)), perhaps also according to *Dr. Moses Durazo* ([Link](#)).

* Essential oils: Frankincense is *the* universal essential oil & a door-opener because of its effect against black magic, there is a reason, why the savior received frankincense upon his birth.

* Colloidal silver: Silver is the soul metal, the silver chord connects the soul with the body. It is said that werewolves can only be killed with silver bullets: there is some truth to that also when it comes to the jab werewolves, who are terrible energy vampires & suck us humans out. Silver helps to protect the soul (Yin), while gold helps to protect the spirit (Yang). *Haggai 2-8* says: „*the silver is mine and the gold is mine, declares the LORD Almighty.*” There is a good ointment ([Link](#)).

* Manual therapies (acupressure, chiropractic, Bowen, osteopathy, fascia & strength training): There is a virus point on the lower underarm (lung meridian 7 [Link](#)) near the wrist a little bit towards the crook of the arm, about where one feels the pulse. This virus point can be used both diagnostically & therapeutically: when a tight pressure hurts, then you have a virus infection. During acute infects you can massage the virus point every hour, similar to the general pain point large intestine 4 between the thumb & index finger, which is especially good for a sore throat.

- * Zapper Diamond Shield Crystal ([Link](#)): especially the chips 4W 4 walls (protection against infection by the German healing practitioner *Alan Baklayan*), DTX (detox), AIM (auto-immune regulation especially vaccine damages), BiBlo (bioenergetic blockades), ImVir (viruses), Sch-M (sniffles) & GR-M (influenza), as well as the basic Diamond Shield, continuous zapping 33 kHz (*Hulda Clark*) & 3.92 Hz (*Robert Beck*). The best effect is achieved with the fractal amplifier.
- * Bowel cleanse: Both health & death sit in the intestines, this is known in naturopathy, the likely best intestinal cure is Colo-Vada Plus.
- * Energy spiral 54cm Dr. Anton Stangl: with 400-500,000 Bovis ([Link](#))
- * Bloodletting according to the protocol of Hildegard von Bingen ([Link](#), [Link](#)): The natural alternative compared to the apheresis (blood purification) booming since the jab globocide 2021, which only takes 10-15 minutes instead of 4-5 hours & is 30 times cheaper (€30-€100 versus €1000-€3000). Once upon a time the recommended bloodletting interval was every 6 months, but now in the end times you rather need it every 1-3 months. What matters is that the blood changes from the dark & thick thrombosis blood into the light & fluent normal blood: without this change one moon cycle later appears the best choice. The only drawback is that during acute problems it is not always possible, as it can only be done in the days after a full moon. In the case of life danger one might try to combine the two methods (which most likely won't work either because of the long waiting times).
- * Homeopathy (anthroposophy): especially snake toxins like Lachesis, because Lucifer is the snake, Aurum/ Lavandula comp. (with Aurum D4). Moreover, Chavita 4 from the Rubimed AG (*Dr. Reimar Banis* Psychosomatic Energetics) was created especially for the heart chakra.
- * Walter, salt & thermal/ cold treatments (nasal irrigations, footbaths, base baths, sauna): These 3 treatments are very important & basic treatments. There is a reason why the Sermon on the Mountain says that we are the salt of the earth. These healing methods go back thousands of years, including *Hippocrates* the father of modern medicine, later *Sebastian Kneipp* etc. Why is salt so good? Because it cleanses on a subtle level, also working against black magic ([Link](#)), illustrated by an interesting story ([Link](#)). Unfortunately, the 'truthers' with their black souls bet on pharma dirt like *Ivermectin*. Nose irrigations with salt reduce the risk of a Covid hospitalization to 1/8 according to *Steve Kirsch* ([Link](#)). This is at least as good as other methods, yet with very little effort & at almost no cost, and certainly without side-effects.

According to one study, regularly having a sauna lowers the death risk by 70% ([Link](#)), because of the main impact on the cardiovascular system now in 2023 rather by 90-95% when one follows the protocol of Pastor Kneipp. In this protocol you follow a cycle of 2 hours, i.e. you make 2 sauna sessions with only one short break in-between for drinking water & an *ice-cold* shower, then you should stay away from the heat until 2 hours after you first entered the sauna. Years ago cold

showers alone lowered the sick leaves by 30%, especially by strengthening the leukocytes ([Link](#)). Very cold showers have dozens of positive effects, especially because cold water & workouts activate vitamin D, see *Dr. Raimund von Helden* ([Link](#)).

Then you have electrolysis foot spas, where Dr. *Klinghardt* ([Link](#)) recommends the platinum coil by KI Science, which however costs EUR 500-3000, compared to EUR 70 e.g. by *Hydrosana*. Platinum shall prevent a second toxin resorption, but only at the major disadvantage that you no longer see your own dirt. These foot baths detox aluminum, which is in vaccines & chemtrails.

* Hyperbaric oxygen therapy

* Teas: pine needles, cat claw, cistus, lungwort, lion's tooth roots, hawthorn & forsythia. Hawthorne was already mentioned by *Jahenny* as a remedy when for the 'sudden & unexpected' deaths. And forsythia was mentioned in a 2012 study of the German Bundestag ([Link](#)). The outbreak in China came within *1 day* (!) after 66.6/2 quarters after the release of the film *Contagion* (September 3/9, 2011). This movie even contained the bat as the scapegoat, moreover the remedy forsythia ([Link](#), [Link](#)). According to *Dr. Judy Mikovits* suramin made from pine needles is the antidote of the elites.

* Food supplements: combination of bromelain & acetylcysteine ([Link](#)), healing earth/ zeolite/ bentonite, garlic (unpeeled garlic cloves against the jab vampires), curcuma, black cumin oil, turpentine, osha (bear root), Pianto Biotic SB ([Link](#) potent heart remedy), magnesium (applied locally in the form of magnesium oil), Q10 & B3 (important for the energy metabolism)

* Clear the heart nerve: The heart nerve is below the left ribcage, then in the middle of the of the ribcage & horizontally below the left collarbone. It is cleared with a simple massage.

* Subliminals: e.g. Maximum Immune Response ([Link](#))

(4) Black holes, karma knots, core veil, qliphoth & other (pseudo) veils

Black holes ([Link](#)) can be everywhere in the system & because of their blackness (=maximum Yin) pull down into the depths of hell. Both karma knots & black holes are formed over many incarnations through the increasing densification of an issue, e.g. pride (LoC=170), rage (LoC=150), greed (LoC=125), fear (LoC=100), grief (LoC=70), despair (LoC=50) etc. As long as you still have a karma knot, you definitely must incarnate in the prison of a physical body & can't lose your core veil. Karma knots sit in the spine & arise out of certain issues, the last karma knot to leave is in the tailbone with the issue of fear of death. The very young & very old souls (in their last incarnation) don't have a karma knot.

And as long as you still have a core veil, it is almost impossible to keep your soul white, because the separateness from God is simply too big. When all karma knots are gone, then your core veil can be removed in order to break the chain of incarnations on this slave planet ([Link](#)). The Jewish concept qliphoth is similar: husks veiling the sparks of divine light emanation. In tantric Kashmir Shivaism the 5 kanchukas (husks) around the purusha (spirit) are known, they are no. 7-12 of the 36 tattvas, the 6th sattva is maya=illusion/ matrix ([Link](#)). Although the loss of veils is by itself irreversible, the black side can install pseudo-veils, which are half as powerful as the actual veils.

(5) Spiritual scales

I use *hundreds* of different spiritual scales (because *every* weak spot is a potential portal for the dark powers), one should optimize the most important ones *directly* via prayer:

* Level of consciousness 0-1000: scale of *David Hawkins* MD PhD ([Link](#))

* Soul impurity 0-50: Jewish scale ([Link](#))

* Soul level 0-100%: general condition of the soul (best value 100%)

* Spiritual level 0-100%: according to Dr. *Athavale* ([Link](#))

* Blood quotient 0-100%: being filled with the blood of the lamb (Jesus Christ)

* Martyr quotient 0-100%: willingness to lay down one's life for God (equals an *Athavale* value 60% resp. *Hawkins* LoC=600)

- * Surrender quotient 0-100%: surrender to divine will
- * Light quotient 0-100%: being fulfilled with divine light, e.g. see *Lisa Renee* ([Link](#))
- * Number of spots on one's spiritual garment: one should have 0 spots
- * Fear of God 0-100%: „*The fear of the Lord is the beginning of wisdom*“ (psalm 111)
- * Our Father 0-100%: how much of that is embodied in one's life?
- * Soul temperature: should be 1008° ([Link](#))
- * Jyotirlinga 0-72: for men ([Link](#))
- * Körbler vector entire system ([Link](#)): ideally <90°, here one can also use the lines as suggested by the New Homeopathy
- * Life energy 0-100%
- * Embodiment of 330 million divine qualities ([Link](#)): There are 7 levels, the lowest (Yin) only means a short touch for maybe 3-5 seconds, the 7th=highest level (Yang) is the heavenly anchor, which is when a quality is anchored in the system almost irreversibly & can't be lost or stolen. Within these qualities 0-100% can be manifested.

(6) Demonic possessions

Unfortunately, almost always possessions are only understood to be found on a body level, however almost never possessions in soul, spirit & other parts of the system. For this reason, *some* people are free from body possessions, but they still have soul possessions & even more spirit possessions. Strong body possessions may create behavioral problems (*very extreme* forms are depicted by exorcism films), however soul possessions are subtler & thus stronger, the subtlest = strongest are the spirit possessions. The rule of thumb is: you can only perceive & drive out beings that calibrate lower than you, with a parallel hierarchy white & black. Example: you need an Athavale level of at least 70% (which is in 2023 only found among a small number of hand-picked people on the planet) to perceive & drive out a black snake kālā nāg which manipulates the highest soul levels ([Link](#)). The Benedictine exorcism is a powerful prayer, yet only clears demons up to 65% strength, so it is not enough for black snakes ([Link](#)).

Mark 5 talks of about 5000 demons (one legion) in one man, while high numbers are never mentioned by the wannabe exorcists, who talk of one demon or a few at most – so who is right? As always the Boss is right, because the demons in soul & spirit could *not* hide from the Most High, while they can easily hide from wannabe exorcists. It is true that on average there is a one-digit number of possessions in the body, but hundreds in the soul & thousands in the spirit (but maybe by beings that must be classified as extraterrestrials rather than demons). In early 2023 only some hundreds of people are totally free from *all* possessions. From shamanism we know soul loss, with similar consequences like possession, however must be addressed in a different way, namely as 'liberation' & 'soul retrieval'.

This almost 100% misunderstanding of the nature of possessions (in *all* religious, spiritual, esoteric & occult circles) also made the soul of Dr. Jayant Athavale black, also the failure of all (?) of his forecasts was a major alarming signal. In his 2013 sadistics he spoke of 30% humans with possessions ([Link](#)). On the one hand this percentage has of course exploded in the past decade & since 2022 at least 100% of all humans are attacked & most of the time also possessed. On the other hand, his definition of possession is limited to the physical body & the subtle bodies close to the physical body (etheric, emotional & mental body). However, at least 81 subtle bodies do exist.

(7) Answers to prayers

The topic of a missing answer to one's prayers is a long runner & an incredibly big topic that can fill many books, so it can only be touched briefly here, because 5000+ factors play a role. 7 prerequisites for answers to prayers according to one model ([Link](#)): (1) condition of heart (2) sacrifices (3) behavior (4) enough time (5) forgiveness, innocence (6) fear of God (7) sanctity. Only when all 7 conditions are fulfilled, then you can access the 7 altars for prayer fulfillment ([Link](#)): (1)

condition of heart & character (2) family (3) enemies (4) spiritual warfare (5) grace of God (6) God love (7) cross.

These 7 main items have myriads of sub items, e.g. the extent of forgiveness depends on 200+ sub-factors, in the most extreme case all 80,000 hindrances known in Buddhism may prevent forgiveness. From *Matthew* 18 we know that you won't be granted forgiveness unless you forgive yourself. The very popular false teaching of a 'forgiveness automatism' (both in Christianity & new age) 100% comes from the devil & includes only one factor: you ask God to forgive XY & then the 'divine forgiveness machine' will always & without exception 100% fulfill this wish. It goes without saying that nothing could be further from the truth than this brain-dead assumption... in 2022 the sin forgiveness quota was only a tiny 1-2% (mainly tiny sins), without priestly assistance it is even lower...

Millions of books, audios & videos ceaselessly repeat the mantra of forgiveness – which however is mostly futile for >99.9% of the world population. Forgiveness calibrates at a level of consciousness LoC=540, only for those with an LoC>540 remission is easy & fast – but their share has gone down to less than 0.1% of world population. More than 99.9% of world population must first pray that they learn to forgive, everything else is like the first-grader who wants to solve an equation with 10 unknowns. Forgiveness calibrates at LoC=540.

The Jewish teshuva protocol ([Link](#)) includes 14 points & thus is light years better than today's so popular & absurd forgiveness protocol. Still, it still misses 100+ factors, one of the most important ones being whether or not you forgive your debtors, as expressed by the parable of the unforgiving servant ([Link](#)).

And yet, successful forgiving is not identical at all with impunity, one must 100% distinguish between karma & soul: not punishing one's debtors means one encourages them to commit similar sins in the future & then you are complicit in these future sins. Although one has to purify the soul from all *personal* irreconcilabilities, one must *at the same time* (!) insist on God's wrath, see Revelation 6-10:

They [the saints] called out in a loud voice, "How long, Sovereign Lord, holy and true, until you judge the inhabitants of the earth & avenge our blood?"

The mingling of these 2 levels is a very grave sin jeopardizing one's salvation. Punishment is part of the concept of sin prevention in the widest sense. Even *David Hawkins* was brainwashed in this respect & rejected the Book of Revelation as a whole, that's why he didn't go to a very high level in heaven after his death. We can't let anyone enter into heaven who refuses to express God's wrath as his iron rod. Example: the left Freemasonic judicial system often refuses to jail child rapists, so these judges load the death sin of child abuse on *their* karma account, leading to incredible torment after death. To a lesser degree it is already enough to endorse such a policy for the same sin being booked to one's karma account.

To some degree, all of that has been true since the beginning of Last Judgment at Pentecost 2019, but it fully counts after the end of the dark age on 9/15/23. The past two millennia belonged to the suffering Christ, who was a curse of the Father against humanity, which is however never ever realized. There are many curses of God against humanity, e.g. *Genesis* 3-16: "*To the woman he said, I will make your pains in childbearing very severe; with painful labor you will give birth to children. Your desire will be for your husband, and he will rule over you.*" That's why according to *John* 7 Jesus recommended forgiveness *instead* of justice (=stoning) for an adulteress: the Father on purpose defined 300-400 parameters in a way to make sure that humanity will move further & further away from him, sinking deeper & deeper into sin & hell. 5 examples:

(1) First God chose the Jewish people as his people & gave them a great many privileges. The reason for this choice was that no other people on the planet would have done so much evil & brought humanity so far away from God.

(2) God allowed reptilian Gods like Yahve to pretend they are God & order them nightmarish things, e.g. circumcision ([Link](#)).

(3) Then God reduced the lifetime & slowed down the speed of karmic acceleration. Once upon a time people lived 10 times longer (*MethUSA* 969 years), which meant that people harvested their karma in the *same* life, creating a strong learning effect & thus minimized sin. Then He

reduced the lifetime at first to 120 years & finally to 70-80 years, so that people usually did *not* harvest their karma in the same life – a huge incentive to sin.

(4) Later he sent his son Jesus Christ, but only made him half-smart, a limitation on the level of the 2nd of the 5 kanchukas vidya ([Link](#)). Example *Matthew 24*: „*But about that day or hour no one knows, not even the angels in heaven, nor the Son, but only the Father.*“ Normally we associate divinity with omniscience, yet *Jesus Christ* himself admitted that he was *not* omniscient & thus in this sense was not 100% God-like. Now I hear the Jesus freaks howling, because their deception is without limitation. In addition, *Jesus* clearly stated in *John 14-6* that He is only the door (portal), while the true goal is the Father: the Jesus fools remain stuck in the doorframe so-to-speak, without moving on. But even the Father is *not* the highest God aspect, only the highest accessible in the expiring Kali Yuga. *Burkhard Heim* has proven in his unified field theory that the manifest universe consists of 12 dimensions (12D). Above that we find the God aspects beyond the manifest creation: the divine mother (13D) is the lowest divine aspect (ambiguously worshipped as 'Mary') & yet the only one consistently available in the Kali Yuga ([Link](#)). The divine child/ Jesus Christ (14D) was only partially available, even less the divine father (15D).

(5) Jesus was often only allowed to speak highly encoded in allegories, in order to maximize the number of wrong interpretations, as part of the testing in the Kali Yuga, *Matthew 13*: “*The disciples came to him and asked, why do you speak to the people in parables? He replied, “Because the knowledge of the secrets of the kingdom of heaven has been given to you, but not to them.”* Whoever wants to read plain text must read the Vedas, which are older than 5000 years from the Dvapara Yuga *without* the veils of the Kali Yuga. In addition, Jesus had to spread half-truths e.g. like turning the other cheek (although this is a highly encoded message as well & therefore almost always misunderstood), again with the ultimate goal to drive people away from God. The most fundamental spiritual misunderstanding is contained in the name God (which is derived from 'good'): namely that God is *only* the good. However, this is a dualistic view after having eaten from the tree of knowledge, which pulls down towards LoC<600 & thus makes liberation impossible.

The good news is though that on 9/15/23 the Kali Yuga ends & then the curses & veils of the Father for the Kali Yuga no longer apply, moreover the circumcised lose their privileges etc. That's why we can soon experience higher God aspects than 15D up until 48D Emerald Order King Arthur & the suffering Christ (=lamb) will become the ruling Christ (=lion): partly already in the 7-year transition period Kali & Satya Yuga 2023-30 & a lot stronger afterwards, in 2030 the very big outpouring of the Holy Spirit prophesized in *Acts 2: 17-18* begins. Since 11/26/94 Merlin (20D) could be accessed by thousands of people, since late 2022 we open the doors towards 24D ([Link](#)).

There are so many different gauges to quantify which vibration is really manifested, e.g. the level of consciousness LoC or the spiritual temperature ([Link](#)). Moreover, it is good to use the hypersonic level in decibel (dB) according to Rainer Gebbensleben ([Link](#)). The average Christian prayer only manifests somewhat more than 1000 dB: even the weakest of the 7 demonic levels is stronger, i.e. *every* minor demon can stop such a prayer ([Link](#)). True spiritual healers manifest thousands of decibel, as do major Koltsov circles with dozens of plates, where less & less dark hierarchies can cope with. The hell queen creates some 4320 dB (432 Hz as the chamber pitch & 432,000 years of the Kali Yuga). Unfortunately, the general stance towards prayers is that one should give it a try & in the worst case they are not answered: however, this is not true at all, very often they are sin & create a string of problems. One problem of weak prayers is that they are often intercepted, decoded & answered by dark powers, which opens a portal into the hell realms & pulls the soul into these worlds ([Link](#)).

Naturally, the content of prayers is a catastrophe, in 2023 most prayers are sin, as mentioned in *Psalm 109*. One should always ask: what do you want my God, what is now needed most? Unfortunately, this question is hardly ever asked, instead a standard list or one's personal shopping list is prayed.

There are at least 43 different divine presents, e.g. transmissions, stars/ potentials, weapons, companions, prayers, songs/ mantras, fire, healing remedies, books/ information, siddhis, qualities & blessing parcels/ grace shells, the latter described by *Helmut Lungenschmid*. There are 2000+ different types of weapons, 48 of them being the Indian astras ([Link](#)). Books (information) are the healing remedy for the complains in *Hosea 4-6*: “*My people are destroyed from lack of knowledge.*” In the heavenly libraries 100+ billion books exist, John Doe doesn't own a single one. In the

spiritual world shoes represent knowledge, that's why they run around barefoot & in hell everyone is completely naked. Transmissions are certain capabilities one receives, there are hundreds of billions of them, average Joe has only 14 (for the immediate survival). From the Myrddin lineage you get 100+ transmissions, *David Hawkins* had 1000+ before his death. There are 9999 forms of divine fire, the prophet *Elijah* only called down one form. Siddhis are supernatural capabilities, e.g. the 7 horns anointing suggested by Pastor *Sundhar Selvaraj* ([Link](#)) or vakku siddhi for senior prophets. Songs/ mantras are also important, according to *Revelation* 14-3 only the 144,000 chosen ones (with an emerald heart [Link](#)) can sing a certain song, namely the heartsong of the divine mother.

These number examples should demonstrate that we must decouple 100% from the thinking of the Kali Yuga (like a poor devil) & instead look at the vast abundance of the God worlds, i.e. ask for these heavenly treasures. This request is certainly not an 'option' or an offer without engagement, *Matthew* 25-29: "For to everyone who has, more shall be given, and he will have an abundance; but from the one who does not have, even what he does have shall be taken away."

Partly these gifts are openly placed in the field & must be opened & integrated *consciously* by prayer - which is almost never the case. It's like when a parcel service delivers a parcel to your mailbox & yet you complain that the parcel hasn't been delivered. The longer you don't integrate these gifts, the less their benefit, e.g. some of them were actually intended for a special situation in the past, they are stolen & always the principle applies: *use it or lose it*. It is more than absurd when the fulfilling of prayers is not realized, similar to the fulfilling of prophecies hardly ever realized. God will hardly place His gifts in the aura (i.e. no longer respond to these prayers), when His presents are not received or not used.

(8) No spiritual warfare

An important of myriads of reasons for lack of prayer answers is that they contain so little spiritual warfare ([Link](#)), which has been crucial since the beginning of Last Judgment at Pentecost 2019. The strong spiritual attacks began soon after my Satori event more than 30 years ago around mid-December 1992 (first touch of enlightenment on average LoC=585 [Link](#)). This was the onset of the 7 years of *unconscious* warfare, that is how long it took me to realize that something like spiritual warfare does exist. The next 7 years were dedicated to learning the base, followed by the 7 years of active warfare, then the 7 years of very intense warfare (which began in January 2013) & since the huge nuclear battle from December 8th/ 9th, 2020 (the impacts were also noticed by *Sergey Koltsov* [Link](#)) I am in the maximum martial activity, with a high leading position in God's army. Spiritual warfare is by far the most demanding, dangerous & difficult of all spiritual activities, yet also the one with by far the most positive karma, especially the martyr death (fills the heavenly treasure). We will certainly not allow spiritual deserters to enter heaven, because they would transform heaven into hell.

Without doubt, the best individual source for spiritual warfare is *Peniel Ngonde* ([Link](#)) with about 1000 videos, partly from former satanists betraying secrets: watching 1 hour of these videos every day needs several months to work off the list. Also Pastor *Derek Prince* offers many great lectures on that ([Link](#)). Pastor *Joseph Cortes* wrote a series of 8 books on this issue ([Link](#)) & Pastor *Daniel Olukoya* a brick of a book ([Link](#)).

One can distinguish 4 levels of warfare ([Link](#)), the most important target is to grab the soul (=black soul) & the most important battlefield is the mind ([Link](#)). On this battlefield the so-called 'truthers' lost spectacularly in 2020, since 2020 the 'truthers' spread even more BS than the lying press. A good history comes from *John Eckhardt* ([Link](#), [Link](#)), a long playlist from *Robert Clancy* ([Link](#)). Almost all sources go back to the USA ([Link](#), [Link](#)): the United Satan has been the most belligerent nation in the history of humanity with the biggest number of gun freaks, both on a gross & subtle level.

The book of *Rebecca Brown* MD ([Link](#)) clears up many nonsense & euphemistic theories regarding spiritual warfare & gives a realistic impression what to expect on the spiritual frontline. E.g. she writes on page 55 that it is rather simple to drive out demons, yet 7 times more difficult to keep them out afterwards. On page 63 she made clear that one should by no means live with a black soul in a household. However, at a truth content of only 75-80% the book also contains a lot of

baloney. Yet on 1/15/23 her PDF ([Link](#)) suddenly opened by itself (through the hands of God) on pages 131ff.

The difference between normal prayers & good warfare prayers is the degree of aggression, i.e. the more brutal the better. Our role model is the prophet Elijah, who beheaded the 850 false prophets of Queen Jezebel (although he chickened out when it came to Queen Jezebel herself). The dark powers laugh at the plain vanilla prayers of the softies. Luke 12-49 is always ignored by the Christian fools, thus it should become one of our favorite verses: "I have come to bring fire on the earth, and how I wish it were already kindled!" 49-12=37: the global conflagration arrives in the year 2037. A very basic warfare prayer is for instance:

In the name of Jesus Christ I decree that all my enemies with a black soul will be tormented forever as much as possible by God's fire, unless they repent.

The 120 warfare prayers by Dr. Daniel Olukoya from Nigeria ([Link](#)) are a shining example where the enemy is attacked "in the name of Jesus Christ" with the greatest possible violence & ferocity (e.g. fire), which is exactly the way it is supposed to be & as shown by archangel Michael & his warrior angels, beating the shit out of the evil ones 24/7. In early 2023 Olukoya was one of the hand-picked list of persons on the planet with an LoC>600 (high 700s), he was born on 7/15/57 with the sun in a wide orb to heaven's gate at 108°. However, these 120 war prayers are only for bloody beginners, every God warrior needs *thousands* of war prayers.

All of that was once so much easier, but the spiritual war now in the end times can *only* be fought with heaviest offensive weapons, e.g. with the 48 Vedic astras ([Link](#)). Into the 20th century light defensive weapons were enough, like the 6fold armor of God going back to the wolf in sheep's clothing (Saul Paul), as almost all misleading teachings of the New Testament: 1. belt of truth 2. breastplate of righteousness 3. shoes with the gospel of peace 4. shield of faith to extinguish all the flaming arrows of the evil one 5. helmet of salvation 6. sword of the spirit = God's word.

(9) Proceedings in heavenly courts & legal titles

In this case it is not entirely clear how long this will still play a role, because of the major changes since the beginning of Last Judgment at Pentecost 2019. I went to the heavenly courts for the first time about 20 years ago. The pioneer in this respect is Dr. Francis Myles from Zambia ([Link](#)). There are hundreds of thousands of judges in heaven, on average the court hearing lasts for 15-30 minutes (which is also the duration of the soul review), i.e. theoretically millions of verdicts can be delivered each day. Formerly the outcome of these trials was not sure, but since March 2021 the situation has improved a lot. Because on 3/6/21 (1260 days after the Virgo constellation 9/23/17 mentioned in the Holy Bible) Satan had his last heavenly residence permit revoked, namely as an accuser of the sinners. Needless to say, these devils didn't leave voluntarily, but again archangel Michael & his angelic hosts had to kick them out violently, hallelujah! Nobody outside of the Amanita readership realized that on this day the prophecy from Apocalypse 12-9 fulfilled, with 12+9=21 pointing to 2021, i.e. the year was encoded in the Holy Bible.

Since March 2021 the main problem is that only 1-2% of the souls are present during the court session, in which case the case is adjourned & no verdict is decided. Thus the 100% presence during the trials must also be part of the prayer, which requires multilocation though, i.e. the multiple presence in at least two distinct places at the same time. Saints (miracles siddhis LoC>570) of all true spiritual traditions report bilocation, called Tay al-Arz = folding up of the earth ([Link](#)). Moreover, one should pray to be clothed in righteousness according to Zechariah 3 ([Link](#), [Link](#)).

The prayer should be that all injustices & unanswered prayers should be put before the heavenly court & especially everything needed to write one's soul into the heavenly book of life (=make it white). In addition, *possibly* one can obtain restraining orders against devils=black souls, also against financial demons ([Link](#)). Junior prophets like Dr. Maurice Skalar act as a reporter of Last Judgment ([Link](#)), he wasn't allowed to see the face of the Father (remained veiled by light) & other things. Only senior prophets (LoC>700) are allowed to see God's face ([Link](#)), a sure indication that Skalar is pretty far away from God & thus questionable.

(10) Black magic

Below I only provide a small, by no means complete test list without many explanations, as a base for own research:

- * Suctions/ deletions/ stolen & replaced property: heat, light, energy , time, knowledge, sleep, weapon, bodies (parts), connection (e.g. with God, soul, presents, partnership/ sexuality, chakras, deletions, potentials/ stars, health, qualities, protective layers... This requires retrievals ([Link](#)) e.g. of the star (=God-given potential for an incarnation) as described in *Star Hunters* by Pastor *Dr. Daniel Olukoya* ([Link](#)). An especially obnoxious theft is flushing away with gross or subtle toilets, the locus danger is also discussed by Feng Shui & other sources ([Link](#)). The shithouse is ruled by the demon (siren) Jacqueline etc. ([Link](#)), *Jacqueline* is the female form of *Jacob*: Jacob's ladder directly leads into heaven, while the toilet ladder leads down into hell. In the Talmud, the second most important Jewish book, the WC demon is called *Shed Bet ha-Kise* ([Link](#)).
- * Energy weapons: arrow/ spear/ trident/ / halberd/ axe/ morning star/ dagger/ snare/ hammer/ scythe/, chains, demonic scratches, gun/ shots
- * Arrangements with the black side ([Link](#)): treaties (e.g. soul sales), vows, oaths & promises
- * Insignia & property of the black side: e.g. bar codes & QR codes
- * Entities/ accesses/ portals/ wormholes (test list [Link](#)): angels, guardians/ punishers/ reptiles/ Anunnaki, interdimensional mutants, AI machines, elementals, images/ clones/ pirated material/ doppelgänger, archons/ demiurges, negative gurus & lineages, asuras/ titans, friends/ social network, false roots (at the acupuncture point kidney 1 on the foot soles), connections with negative realms (including ancestral realms), astral debris, knots, pseudo veils, holes/ black stuff, masks, camouflages/ deceptions, aura holes, subtle vaccines, burden bearers, UFO landing sites, secrets, manipulation images/ dreams/ thoughts brain feces, symbols, invisibilities, implants, screen-memories, confusions, catch-22, blackmails, remote controls/ zombification, false kundalini snakes, permutation, mirror/ pretense/ side changes left/ right, element spirits/ elementals, anchors
- * Super-imposed/ plans/ curses: e.g. knot magic/ DNA curses like Jacob's ladder ([Link](#)), pearl magic, name & number numerology
- * Outer manipulation through installations in the hell realms (altars): closures, set outside of space & time, cords/ pipes/ hooks, time, linkages, resonances, tracking devices, evil eye/ handshake, electrosmog/ chemtrails, sabotages, false ceilings, time loops, latches/ barrages/ quarantines/ cages/ ribbons/ fetters, ban/ bubbles, locks/ lockdowns/ encryptions, chains, prohibition of solutions/ stoppers, spiders/ nets, crowd madness/ pain poos, part of hierarchies, ditches/ traps, frequency fences, bombs/ accidents, placenta/ dark mother/ dark Madonna Achamoth/ ancestors/ genetics, witch's cauldron circles/ circles, shrines - coffins & altars.

At the birth of each human a coffin is created in hell with the target that the soul will go there after death. Hell altars are best known ([Link](#)), altars are an interface between man & spiritual worlds & have for instance been repaired by the prophet (1 *Kings* 18-30). *Dr. Francis Myles* offers many definitions for altars ([Link](#)): 1. supernatural landing strip 2. power station 3. consecrated place 4. place of exchange comma 5. table of fellowship comma a place where covenants are made 6. platform where spirits land 7. Place where humanity meets with divinity 8 place of sacrifice 9. place of worship 10. Place of prayer 11. Place of communion 12. authority system for promises, vows & agreements 13. API between natural & super-natural. All hell installations must be destroyed, because they are a huge obstacle against prayers being answered.

(11) Clearing the past

Heart walls/ hardened hearts (walls around organs & other walls), posthypnotic suggests, stuck emotions emotional resonances, despair anchors & addition energies are explained in the book *Body Code* by *Dr. Bradley Nelson* & cleared with the aid of magnets. Other starting points: traumas, miasma ([Link](#)) & psycho-energetic conflicts (books by *Dr. Reimar Banis* [Link](#)).

(12) Assemblage point

The assemblage point was introduced by *Carlos Castaneda* ([Link](#)), with a number of modifications e.g. by *Dr. Jon Whale* ([Link](#)). Normally it is an arm length behind the right shoulder blade & defines our consciousness, it can be distorted in many different ways. That's why more & more jab zombies start a right spin just before they leave this planet ([Link](#)), as announced in the 2008 film *The Happening*. 2016-23 were the 7 years of the battle for our soul (7th & 8th dimension, LoC<850), while the 7 years 2023-30 are the battle for our consciousness (9th-12th dimension) LoC>850), especially through extra-terrestrials & the AI artificial intelligence & we see the first signs. In other words: at an LoC<850 our fight is mainly against terrestrial beings, at an LoC=850-975 mostly against extra-terrestrial beings. It requires an LoC>975 to be immune against that, that's why *Moses* LoC=910 was heavily influenced by aliens, explaining his support for satanic practices like circumcision etc. For humans 144 assemblage points are relevant.

(13) Soul

One can broadly quantify the soul condition on a scale 0-100% (soul level), with 100% being the best value. Typically, the soul becomes black at a level of 20-30%, in 2023 the global average of humanity approaches a beastly 10%. In comparison, at the beginning of the end times in a wider sense at the end of the 19th century (beginning of Jewish invasion in Palestine) the soul level was still a very high 95%. Even *David Hawkins* had a soul level of only 10-15% in the 1990s when he published his first book & before his death approached 50%. For a long time, he drank the cannibalistic witches' brew Code with the fetal cells HEK-293: nobody with a high soul level will drink this devil's drink. In early 2023 a mere double-digit number of persons had a soul value >50%.

People don't notice that because of their almost zero soul contact. So at the beginning of the soul research you first must establish the soul contact, in 2023 the average person has only 1-2% soul contact (the vaccine zombies even less than 1%). Millions of people will die during the soul review, when they experience the full ugliness of their soul during the soul review. The average person has only 2 tiny opportunities for the soul contact: dreams & orgasm. For the woman the orgasm is more difficult to reach because the man has a stronger contact with the light. There is a reason why the orgasm is also called the small death (of the ego), and there 85 aspects of the orgasm (the 85 is the number of resurrection after death). By no means can we approach this topic with the simplicity of crowd madness, e.g. the 72 levels of Hieros Gamos (divine marriage). The second most important thing are likely soul possessions & soul strength (ability to suffer): a weak soul can easily be overpowered by the evil forces.

The land of the soul is vast, on the consciousness scale of *David Hawkins* MD PhD LoC=540-850 (LoC>850 is the spirit). For the lowest soul aspects LoC=500s we still have words, the very last common term is peace for LoC=600, however 600-1000 isn't part of the regular human life experience, so it is usually summarized by just one word (enlightenment/ God unification).

Expanded index of soul aspects:

Soul level 0-100% (soul condition), soul color (white/ black)/ soul purity on the Jewish scale 0-50, soul strength, soul possession/ siege, extraneous souls, soul temperature, soul partner/ dual souls (artificial dualities), soul body, soul loss (especially after trauma), soul guides, galactic soul star (15 cm above head), soul theft, soul light, soul gland (pineal – as already suggested by René Descartes in the 17th century), soul prisons, soul barter (walk-ins), soul family/ over-soul, soul harmony, soul calmness, soul group/ monad, collective soul, animal group souls, soul treaty, soul look, soul ego, soul fixation, soul plan, individual soul, dark night of the soul, soul rays, soul healing, soul roles, soul salvation, soul pain, soul name, soul sound, soul eyes, soul spark/ essence (yuan shen), soul dimension, soul size (on average 150-200 m) soul chakra (#12, 6-7 above the head), soul peace, soul lens, soul heart, soul power (=ability to suffer), soul number according to Grigori Grabovoi 5555555, soul connections, soul sale (e.g. also through one's mother [Link](#)), soul parts (e.g. disharmony between soul parts), soul door, oversoul paramatma, soul frequency, soul shells, soul closure (for protection), soul veil (inner veil), healer soul, soul voice, soul channels/ connection (antahkarana), soul access, soul eye (3rd eye), soul chakras (e.g. 6-7m above head), soul level of consciousness (LoC=560s typical of white souls, LoC<200 black

souls), happiness of the soul (bliss), soul age, soul integration, eight-armed steering wheel of the soul according to Arcady Petrov, soul contact, soul task, soul substance (folding), soul home, soul travels (astral projection), soul love & soul aggression according to Sergey Lazarev, soul quotient according to Andreas Krüger, soul origin, soul foreknowledge, soul root, soul energy (future potential, electric-violet), soul intelligence, soul purification, soul matrix according to Varda Hasselmann & Lisa Renee ([Link](#)), creator souls, transpersonal & transliminal souls, soul classes, soul review, soul split, soul price...

(14) Job & finances

Whoever has a regular job, creates a lot in 30-60 hours per week – the only question is positive or negative, for or against God. When there is something fishy, then it's almost impossible to correct that. Satan has created today's economic system in a way that only few professions create positive karma, most are sin & very negative for the karmic account. Then there is no way to change profession, which will be fairly easy soon, because until 2024 everything collapses.

The financial sector is of course totally bewitched, too. Not only how you spend your money is karmically very important, even *accepting bewitched money* can cause great damage ([Link](#), [Link](#)). Once upon a time the dollar bills with satanic symbols, but cryptos top that by far. Cryptos were created in hell, they are the fallen aspect of the key of David, which was passed to someone from the Amanita network on 5/15/15, close to Philadelphia. The subtle fields behind cryptos are very strong, weak souls can be easily seized: some of the premium subscribers of Amanita lost their soul during crypto transactions. I keep my crypto contacts as small as possible & always have to clear myself afterwards intensely.

Among normal securities difference securities (futures, FOREX & CFDs) are karmically a lot more neutral than securities to own (cryptos, stocks, bonds, funds, ETFs etc.) & thus preferable for this & many other reasons. However, property also offers some advantages: holding a single common stock gives some rights like accessing the shareholders' meeting etc., the same is true on a subtle level. Shortly before the crypto all-time low in 2021 I received the order from the Most High to destroy the cryptos: this is much easier when you own cryptos.

(15) Fusings (partnership & sexuality)

One must also clear all false mergers, where more than 6000 different types exist, which of course can't be listed here, this alone would fill a whole book. The artificial merger on the soul level (artificial dualities) & chakra mergers were described in the books of *Dr. Guido Schumacher* ([Link](#)).

Conflations automatically arise through social & especially sexual contacts. A white soul must by no means have sex with a black soul, let alone with a vaccine zombie. When the black soul of a partner has reached the 50th level of impurity on the Jewish scale, then a breakup is inevitable because for this soul there is no hope left. In the case of black souls up to the 49th level of impurity a sex-less partnership can be tolerated for some time (until 2024 at most), because then the level for a conversion black->white closes almost 100%.

According to a 10/6/22 divine request, 50-60% of humanity has a demonic marriage = occult partner ([Link](#)), men are especially married with mermaids, some of them also manifest physically, especially close to the sea ([Link](#)). These demonic marriages certainly make the soul black, i.e. all demonic marriages must be divorced as soon as possible. In the Holy Bible we hear of the beast from the earth (=Satan, Yang) & the beast from sea (Queen of the Sea Mary): she has gotten a lot stronger since the 20th century, her ideas are the modern satanic ideologies like emancipation, feminism, multikulti, climate cult etc. Between these two beasts we find both cooperation as well as competition & battles. Something like equality can *never* exist, because God has created every human uniquely, with very individual rights, duties & tasks.

A demonic marriage will almost inevitably lead to the gross sexual life vanishing (shifted into the subtle levels) & is also the subtle root of the soaring global barrenness since the Q2/2022. By the way, in a divinely ordained partnership (Hieros Gamos) withholding sexuality is a grave sin (because of the God-ordained fusion): the angels of marriage shall protect the sexual life & thus punished a wife for her sexual refusal ([Link](#)).

(16) Everyday sins/ karma (lifestyle & personality deficits)

When analyzing black souls in most cases it's fairly simple which of the 7 death sins has caused them to fall. Now in the end times the most frequent one is the Venus death sin sloth/ idleness/ feebleness/ convenience/ cowardice/ mass thinking, which is often considered to be the most 'harmless' one, which is of course not true at all. As a matter of fact, in early Christianity akeda was labelled as the most dangerous one, e.g. by the Desert Fathers ([Link](#)). The whole technologization is an expression of convenience, everything is sacrificed to the noon demon. Instead of the effort of thinking yourself the crowd prefers to repeat the empty words of the lying press etc. As always the rule is „use it or lose it“: today's lack of energy is caused by people permanently refusing to do what they should do.

The karmic burden is almost always overlooked by Christian crowd madness, especially by the Luther protestants & loveholics, these junkies need a shot of hyper-grace every day, how disgusting! Today's modern lifestyle has been created in a way be the devil so that it is *enough* to create a lot of negative karma every day, which by itself is enough for hellfire unless you create a lot of positive karma every day. The nonsense 'you are saved by faith, not grace' goes back to the wolf in sheep's clothing Saul Paul: he was the main villain behind the akeda, suggesting that passive faith is enough & active work is not required. In contrast, the other authors of the New Testament portrayed this issue correctly, i.e. *without* Satan whispering in their ears, e.g. Jacob 2-22: "You see that faith worked with his works, and by works faith was perfected."

The most overlooked form of karma is mental karma created mainly by the brainwashing, already believing a lie opens a hell portal, although spreading lies is worse. There is another aspect of karma that is never understood, namely the 'saving' of karma for the postmortal time ([Link](#)). When you do something good & already receive the reward for that during your lifetime, then this good karma was already burned & does *not* (!) have a postmortal effect. A good example are the good-doers: they do something which is good in principle & then receive rewards by society in the form of attention, publicity, good press, recognition etc. We vaccine deniers were persecuted, attacked, insulted, intimidated, dismissed, harassed, pathologized, discriminated, ostracized, socially isolated, declared as sub-humans etc.: this is exactly how we could earn a lot of positive karma! So one should do as much good as much covertly & not cluck like a hen after having laid eggs (Matthew 6):

Be careful not to practice your righteousness in front of others to be seen by them. If you do, you will have no reward from your Father in heaven. So when you give to the needy, do not announce it with trumpets, as the hypocrites do in the synagogues and on the streets, to be honored by others. Truly I tell you, they have received their reward in full. But when you give to the needy, do not let your left hand know what your right hand is doing, so that your giving may be in secret. Then your Father, who sees what is done in secret, will reward you. And when you pray, do not be like the hypocrites, for they love to pray standing in the synagogues and on the street corners to be seen by others. Truly I tell you, they have received their reward in full. But when you pray, go into your room, close the door and pray to your Father, who is unseen. Then your Father, who sees what is done in secret, will reward you.

(17) Closeness -> opening

On 12/8/22 ([Link](#)) Sergey Koltsov admitted that he was 'closed' for a longer time, which means about the same as a black soul. Koltsov permanently checks himself with the pendulum, which is absolutely necessary in the end times & almost the only way to detect hidden attacks of the black side. The Covid plandemic has been set up in a way to close humans as much as possible on all levels & this is now in 2023 stronger than *ever* before. Naturally, the so-called 'truthers' deny all of that because they are almost 100% blind for the higher-dimensional (subtle) consequences of the plandemic. One can ask how much one's system is closed on a scale 0-100%, when 100% open is the optimum value. In principle almost everything can be closed: divine & vital lines (God connection from the 7 chakras, hands & feet), chakras, energy pathways, kundalini channel, organs (especially the heart), 3rd eye, soul, blood vessels... There are myriads of ways to close down, e.g. spheres/ bubbles, locks etc.

(18) Spiritual & energetic healing remedies

There are so many different spiritual or energetic tools: devices, symbols, relics, statues, essences/ tinctures, images/ audios/ videos. Perhaps 5% of these aids still contribute to one's salvation or health. Most of it is (very) negative & thus a huge burden. However, it is rather difficult to determine that, the most important quick test is whether something is popular or not: when something is popular among crowd madness, then you should run away as fast as possible.

(19) Fulfilling of the life task (0-100%) & the star

This requires not really much prayer but rather a behavioral change, e.g. see 8 factors ([Link](#)). One can only fulfill one's life purpose when the star was not stolen or somehow blocked ([Link](#)), because the star is the God-given potential to fulfill a certain life task. Regarding the star there are almost 300 parameters to consider & thus thousands of manipulation options ([Link](#)). At least 6 different stars exist: marriage, profession, sympathy, children, leadership & God's servant. One of these parameters is the shining of the star: in Tarot the star is the 17th card, the star only shines after the age of 17 years, usually in the early 20s after the end of adolescence, for a long time 21 years was the legal age ([Link](#), [Link](#)). During the deflowering of a woman her star flows, although shaking hands might already be enough to steal the star. Regarding the topic retrieval & repairing of the star I recommend the pastors *Peter Okandjo* ([Link](#)) & *Daniel Olukoya* ([Link](#)). From a statistical perspective this is a less frequent factor.

(20) Prepping

>95% of the prepping is sin & thus leads into the hell, even changing one's citizenship might be enough if it's against God's will ([Link](#)). Nobody was born 'accidentally' in a certain nation, we must never ever act like the prepper fools who rely exclusively on their ego & rational mind to make decisions.

(21) Dogs

Dogs are always a demonic portal & nullify spiritual work. In 2023 this probably is the least likely of the major sin factors & thus the final point on the list.
